23. Problem: (use additional Sheets if necessary)
We have been asked by the customer (with an ESD, #79) to provide SCF users with a subset of ECS Toolkit functionality that runs in the Windows 98/NT environment. Additionally, it runs in the standard ECS-supported UNIX platforms. This CCR is to release this version of the Toolkit, called the MTD Toolkit (standing for Metadata Time Date Tools Toolkit).

24. Proposed Solution: (use additional sheets if necessary)
Release the Toolkit to the SCF users by way of FTP-site (EDHS).

25. Alternate Solution: (use additional sheets if necessary)

26. Consequences if Change(s) are not approved: (use additional sheets if necessary)
